NEW EMPLOYEE SECURITY ONBOARDING CHECKLIST

IT Setup · Policy Sign-offs · Access Provisioning · POPIA Awareness

Employee Name:	
Job Title:	
Department:	
Employee ID:	
Start Date:	
Line Manager:	
IT Asset Tag (Laptop):	
Checklist Completed By:	
Completion Date:	

⚠️ POPIA NOTICE: This document may contain personal information. Handle in accordance with Greyhat4Hire's Data Classification Policy and POPIA Act 4 of 2013. Retain for duration of employment + 3 years. Dispose via secure shredding.

Section 1 — Pre-Start (Before First Day)

Complete these tasks before the employee's first day to ensure systems and access are ready on arrival.

#	Task / Requirement	Responsible	Timeframe	✓
1.1	Create Active Directory / Entra ID user account with correct department, role, and group memberships	IT Ops	Day -3	☐
1.2	Provision email account and set mailbox quota; configure email signature template	IT Ops	Day -3	☐
1.3	Assign role-based access rights (RBAC) per least-privilege principle — no more access than required for the role	IT Ops	Day -2	☐
1.4	Prepare and image laptop/desktop with standard build: approved OS, EDR, VPN client, DLP agent, full disk encryption (BitLocker/FileVault)	IT Ops	Day -2	☐
1.5	Assign asset tag, record serial number, and update asset register	IT Ops	Day -2	☐
1.6	Set up MFA (FIDO2 key, authenticator app, or SMS fallback) on all accounts	IT Ops	Day -1	☐
1.7	Prepare building/office access card or biometric enrollment	Facilities	Day -1	☐
1.8	Schedule mandatory security induction session for Week 1	HR / IT Security	Day -1	☐
1.9	Notify relevant department heads and system owners of new user's access requirements	HR	Day -2	☐
1.10	Verify background screening / vetting has been completed per company policy	HR	Pre-start	☐

Section 2 — Day One IT Setup

Complete with the employee present on their first day.

#	Task / Requirement	Responsible	Timeframe	✓
2.1	Hand over laptop with encrypted hard drive — employee signs IT Asset Acknowledgement Form	IT Ops / HR	Day 1	☐
2.2	Verify employee can log in with temporary credentials; force immediate password change at first login	IT Ops	Day 1	☐
2.3	Walk employee through setting a compliant password (14+ chars, complexity) per Password & MFA Policy	IT Ops	Day 1	☐
2.4	Set up and verify MFA on email, VPN, and all primary systems — confirm employee understands how to use it	IT Ops	Day 1	☐
2.5	Verify VPN access is working; explain when VPN use is mandatory (all remote access)	IT Ops	Day 1	☐
2.6	Configure work email on approved mobile device (if applicable) with MDM enrollment	IT Ops	Day 1	☐
2.7	Grant access to required cloud tools (M365 / Google Workspace / Slack / project management tools)	IT Ops	Day 1	☐
2.8	Provide network login credentials for office Wi-Fi (corporate SSID only — personal devices use guest SSID)	IT Ops	Day 1	☐

2.9	Confirm employee's personal mobile is NOT enrolled on corporate SSID unless MDM enrolled	IT Ops	Day 1	☐
2.10	Test screen lock is set to ≤5 minutes inactivity on laptop and mobile	IT Ops	Day 1	☐
2.11	Install and verify approved password manager (if provided)	IT Ops	Day 1	☐
2.12	Verify antivirus / EDR agent is active and reporting to management console	IT Ops	Day 1	☐

Section 3 — Policy Acknowledgements & Sign-offs

All policies below must be read and signed before access to production systems is granted. HR to retain originals; copies to IT Security file.

#	Policy Document	Date Provided	Date Signed	Signed ✓
3.1	Acceptable Use Policy (AUP)			☐
3.2	Password & MFA Policy			☐
3.3	Data Classification Policy			☐
3.4	Remote Work Security Policy			☐
3.5	POPIA / Privacy Notice & Employee Data Processing Notice			☐
3.6	Non-Disclosure Agreement (NDA) — if not already signed at offer stage			☐
3.7	Code of Conduct & Ethics Policy			☐
3.8	Bring Your Own Device (BYOD) Policy — if applicable			☐
3.9	Social Media Policy			☐
3.10	Incident Reporting Procedure — acknowledge and confirm understanding			☐

Section 4 — POPIA & Security Awareness Induction

The IT Security team or designated trainer must cover all items below during the Week 1 security induction session.

#	Task / Requirement	Responsible	Timeframe	✓
4.1	Explain what POPIA (Act 4 of 2013) is, what Personal Information (PI) means, and the employee's obligations when handling PI	IT Security	Week 1	☐
4.2	Explain the 4-tier Data Classification Framework: Strictly Confidential → Confidential → Internal → Public	IT Security	Week 1	☐
4.3	Show employee where the Privacy Notice and POPIA compliance documents are stored (intranet/SharePoint)	IT Security	Week 1	☐
4.4	Explain the Data Breach Reporting Procedure: what constitutes a breach, how to report it, and to whom (Information Officer)	IT Security	Week 1	☐
4.5	Conduct phishing awareness briefing: how to identify phishing emails, smishing, and vishing attacks	IT Security	Week 1	☐
4.6	Demonstrate how to report a suspicious email (forward to security@[company.com] or use Report Phishing button)	IT Security	Week 1	☐
4.7	Explain clean desk policy: no sensitive documents left on desk; lock screen when leaving workstation	IT Security	Week 1	☐
4.8	Explain password hygiene: no sharing, no reuse, no writing down, mandatory MFA	IT Security	Week 1	☐

4.9	Explain acceptable use of company devices: no personal software installation without IT approval	IT Security	Week 1	☐
4.10	Explain social engineering awareness: attackers may impersonate IT, HR, or management via phone/email/in-person	IT Security	Week 1	☐
4.11	Confirm employee is enrolled on the security awareness training platform and has completed Module 1 (Onboarding)	IT Security	Week 1	☐
4.12	Employee signs Security Awareness Training Acknowledgement confirming completion of induction	IT Security	Week 1	☐

Section 5 — System & Application Access Provisioning

IT to provision access to all required systems. Access must be approved by Line Manager in writing before provisioning.

#	System / Application	Access Level	Approved By	Date	✓
5.1	Active Directory / Entra ID (domain account)	Standard User			☐
5.2	Email (M365 / Google Workspace)	Standard User			☐
5.3	VPN	Standard			☐
5.4	Intranet / SharePoint / Confluence	Read / Edit (specify)			☐
5.5	Project Management Tool (Jira / Asana / etc.)	[Role-specific]			☐
5.6	CRM / ERP System	[Role-specific]			☐
5.7	Cloud Storage (OneDrive / Google Drive / Dropbox)	Standard User			☐
5.8	ITSM / Help Desk Platform	[Role-specific]			☐
5.9	Financial / Accounting System	[Role-specific — if required]			☐
5.10	Source Code Repository (GitHub / GitLab) — developers only	[Developer role]			☐
5.11	Security Tools (SIEM / EDR console) — security staff only	[Security role]			☐
5.12	Privileged / Admin access — requires additional approval from CISO/IT Manager	Admin (justification req.)			☐

Section 6 — Equipment Handover Record

Document all equipment provided. Employee signature confirms receipt, working condition, and understanding that equipment remains company property.

#	Item	Serial / Asset No.	Condition	Received ✓
6.1	Laptop / Desktop Computer		New / Refurbished	☐
6.2	Power Adapter & Bag		New / Good	☐
6.3	Mobile Phone — if company-provided		New / Refurbished	☐
6.4	Security Token / FIDO2 Key — if issued		New	☐
6.5	Building / Parking Access Card		New	☐
6.6	Office Keys — if applicable		N/A	☐
6.7	Headset / Peripherals — if applicable			☐

Section 7 — 30-Day Follow-up Tasks

Complete within 30 days of start date.

#	Task / Requirement	Responsible	Timeframe	✓
7.1	Confirm employee has completed all mandatory security awareness training modules (Modules 1–3 minimum)	IT Security	Day 30	☐
7.2	Conduct simulated phishing test and review result — provide coaching if employee clicked/reported	IT Security	Week 3–4	☐
7.3	Review access rights — confirm no excess permissions have been accumulated since Day 1	IT Ops	Day 30	☐
7.4	Confirm no personal devices or unauthorised USB drives have been connected to company equipment	IT Security	Day 30	☐
7.5	Verify EDR agent is active and up to date on employee device	IT Ops	Day 30	☐
7.6	Review and close any outstanding policy sign-offs from Section 3	HR	Day 30	☐
7.7	Line manager satisfaction check — confirm employee understands their security responsibilities	HR	Day 30	☐
7.8	Add employee to quarterly security awareness training schedule (phishing simulations, updates)	IT Security	Day 30	☐

Section 8 — Completion Sign-off

By signing below, the employee confirms they have received all listed equipment, read all policies, and understand their obligations under POPIA (Act 4 of 2013), the Cybercrimes Act 19 of 2020, the Acceptable Use Policy, and all other Greyhat4Hire information security policies.

EMPLOYEE ACKNOWLEDGEMENT	IT / HR SIGN-OFF
